

Outdoor LED solar light, round HJ-024

Specifications:

Material: ABS

Rated power: 110W

Battery capacity: 2400 mAh

Light color: White -6000K - neutral

Protection resistance: IP65

Service life: $\geq 30000\text{H}$

Light range: 60 m²

Built-in battery: 18650 battery, 2400 mAh

Purpose: Work, learning, party, fishing, camping, etc.

Switching on:

Switches on and off with the orange button. The luminaire has 5 lighting modes:

1. High brightness - 1x press
2. Low brightness - 2x press
3. Medium - 3x press
4. Fast flashing - 4x press
5. SOS flashing - 5x press

Charging:

Charging is possible in two ways; via USB or solar. The solar panels are at the top of the luminaire, for full recharging of the batteries we recommend leaving under direct sunlight for 6-8 hours. The battery status indicator is located on the top of the luminaire.

Note:

The luminaire has a built-in metal hook on the top for easy hanging. It can also be rotated and used as a table lamp.

Thanks to 4 joints on the sides, the luminaire can be easily unrolled in all directions or in the direction according to current needs.
